

## FRUIT TREE POLLINATION INFORMATION

### Apples

Apples need a pollinator. Almost any two kinds that bloom together offer good cross pollination. The following varieties produce poor pollen so they cannot pollinate other varieties: Jonagold, Spigold, Mutsu, Gravenstein, Winesap, & Stayman. If you plant one of these varieties, you will need to plant 3 different varieties in total to get fruit from all of them. Also, if you plant only a very early and a very late variety, they will not cross pollinate.

#### Early Season

Akane  
Jerseymac  
Liberty  
Tydean's Early  
Anna  
Beverly Hills  
Dorsett Golden  
Ein Shemer

#### Early to Midseason

Gravenstein  
Jonamac  
McIntosh  
Paulared  
Prima  
Gordon

#### Midseason

Cortland  
Empire  
Gala  
Jonathan  
Spartan  
Red Baron  
Winter Banana  
Winter Pearmain

#### Midseason to late

Golden Delicious  
Jonagold  
Red Delicious  
Yellow Newton  
Honeygold

#### Late

Fuji  
Granny Smith  
Idared  
Mutsu  
Northern Spy  
Rome Beauty  
Stayman  
Regent

**APRICOTS** are self fertile, but in colder regions it is best to plant a second variety for pollinating to encourage the heaviest set possible. Some varieties are:

Goldcot      Harcot                      Harogem      Moorpark      Scout      Tilton

**CHERRIES**-All sour cherries are self fertile, all sweet cherries, with the exception of Stella, need a pollinator. Windsor, Van and Black Tartarian are good pollinators.

#### Sour Varieties

North star (dwf)  
Meteor (dwf)  
Montmorency  
English Morello  
Kansas Sweet  
(Hansen Sweet)

#### Sweet Varieties

Bing .....Sam, Van, Black Tartarian  
Chinook .....Bing, Sam, Van  
Emperor Francis .....Rainier, Hedelfingen  
Rainier .....Bing, Sam, Van  
Royal Ann.....Corum, Windsor, Hedelfingen  
Schmidt .....Bing, Lambert, Royal Ann  
Stella .....None needed  
Van .....Bing, Lambert Royal Ann  
Angela.....Emperor Francis, Lambert  
Hedlfingen.....any  
Lambert.....Van, Rainier  
Windsor .....Any except Van and Emperor Francis  
Yellow Glass.....Any

**PEACHES** are self fertile with the exception of J. H. Hale. Some varieties are:

#### Early

Garnet Beauty  
Golden Jubilee  
Red Haven  
Reliance  
Sun Haven  
Veteran

#### Mid season

J. H. Hale  
Loring  
Suncrest

#### Late

Belle of Georgia  
Blake  
Crest Haven  
Elberta  
Jefferson

#### Late

Madison  
Raritan Rose  
Redskin  
Sunhigh
